

Aurora

The Aurora off road caravan is luxury at its finest. Travel off road for longer and explore the most remote landscapes in true comfort and style.

“

A unique style of Off Road twin axle Caravan unlike anything on the market

“GAME CHANGER”

There is no other off road caravan like the Aurora.

The AURORA features our new faceted body design, innovative to the industry, allowing exceptional maneuverability whilst decreasing fuel consumption of the tow vehicle like no other van on the market.

The Aurora has up to 900 kilogram load capacity yet is light for its size and has excellent exit and entry angles perfect for traversing tight bush tracks. It has a large capacity solar system, is fitted with our unique industry leading macerator toilet system with 110 litre electric pump out black tank and can carry up to 340 litres of water in and wastes out of remote camping areas.

Fitted with full internal and external kitchen areas, BBQ, massive storage and luxury European inspired furnishings complete with a Queen size bed, the one piece fibreglass monocoque body has class leading insulation for your camping pleasure in all conditions.

Modern, flawless finishes are featured throughout the Aurora, from the materials used in the seating to the unique overhead cupboard design and full width ensuite – this really is the perfect example of sophisticated off road living.

Bush ability

New faceted body design, unique in the industry, allows outback bush maneuverability, decreases tow vehicle fuel consumption

Payload

Full internal / external cooking facilities, massive internal / external storage. TARE 2500kg, ATM 3400kg, load capacity 900kg, light ball weight.

Unique style

A unique style of Off Road twin axle Caravan unlike anything on the market, class leading exit/entry angles, 340 litres of water, black/grey water.
